INTERNATIONAL SEARCH REPORT

iternational application No.

PCT/IB2004/001390

Box	No. I	Nucleotide and/or amino acid sequence(s) (Continuation of item 1.b of the first sheet)
1.	With	regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed nation, the international search was carried out on the basis of:
	a.	type of material X a sequence listing
	b.	table(s) related to the sequence listing format of material
	J .	X in written format X in computer readable form
	c.	time of filing/turnishing X contained in the international application as filed X filed together with the international application in computer readable form furnished subsequently to this Authority for the purpose of search
2.		In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
3.	Add	itional comments:
•		
-		

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-7,36,37(partially)8-12,20-25,38-43(completely)

A method for the preparation of antibodies comprising an Fc region of human IgG (as referred to in claim 1) wherein the cell line is YB2/O (ATCC number CRL-1662) or VERO (ATCC number CCL-81), antibodies obtained with this method and the uses of the produced antibody for the manufacture of a medicament according to claims 39-43.

2. claims: 1-7,36,37(partially)13-16,26-30,44,45(completely)

A method for the preparation of antibodies comprising an Fc region of human IgG (as referred to in claim 1) wherein the cell line is CHO (ATCC number CCL-61), antibodies obtained with this method and the uses of the produced antibody for the manufacture of a medicament according to claim 45.

3. claims: 1-7,36,37(partially)17-19,31-35,46,47(completely)

A method for the preparation of antibodies comprising an Fc region of human IgG (as referred to in claim 1) wherein the cell line is K6H6B5 (ATCC number CRL-1823), antibodies obtained with this method and the uses of the produced antibody for the manufacture of a medicament according to claim 46.

INTERNATIONAL SEARCH REPORT

PCT/IB2004/001390

Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
Claims Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
This International Searching Authority found multiple inventions in this international application, as follows:
see additional sheet
As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. X As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.
